NANDEESH NARAYAN KURUBAR

nandeeshnk506@gmail.com | +91 78927 26438 | Bengaluru, Karnataka | github.com/nandeesh2799

PROFESSIONAL SUMMARY

Final-year BCA student (Expected June 2026) with proven experience designing and shipping AI-powered systems — from offline LLM agents to OCR automation pipelines. Hands-on expertise with Claude, Gemini, Groq, and Ollama APIs; certified in Prompt Engineering; skilled at identifying high-value automation opportunities in collaboration with non-technical teams. Seeking AI Implementation or Fresher Software Engineering role from July 2026.

TECHNICAL SKILLS

AI & LLMs: Claude API, Gemini, Groq, Ollama, OpenAI / GPT, Whisper STT, Piper TTS

Languages: Python, JavaScript, Java (Android), Dart, HTML/CSS, SQL

Frameworks: React, Node.js, Express.js, Flutter, Streamlit

Databases: MongoDB, SQLite, Firebase Firestore

AI Concepts: LLM Prompt Engineering, RAG / Vector Memory, Agent Architecture, Multi-model Orchestration

Tools: Git/GitHub, VS Code, Android Studio, Jupyter Notebook, REST APIs

PROJECTS

StockBridge — Full-Stack SaaS POS & Inventory System 2026

React 19 · Node.js · Express.js · MongoDB · REST API · JWT · Groq LLaMA 3.3 · i18next | github.com/nandeesh2799/StockBridge

- Built a production-ready SaaS POS with 15+ REST API endpoints, JWT authentication, rate limiting, and role-based access control (Owner / Manager / Cashier).
- Integrated a live AI business assistant powered by Groq LLaMA 3.3 70B with multi-turn memory, real shop data context, and multilingual support (English, Hindi, Kannada) — a real LLM agent deployed in a production workflow.
- Implemented offline-first billing with automatic sync, dynamic UPI QR code generation, WhatsApp invoice sharing, and PDF invoice download.

Aria — Desktop AI Companion & Automation Agent 2026

Electron · React · Vite · Ollama · Whisper STT · Piper TTS · SQLite · Claude API · Gemini API | github.com/nandeesh2799/AI-Companion

- Developed a fully offline desktop AI agent featuring a transparent overlay UI, animated character, and persistent SQLite-based vector memory.
- Orchestrated multiple AI models (Claude, Gemini, Groq, Ollama) with automatic fallback; integrated Whisper STT for voice input and Vision Mode for image understanding — directly applicable to internal enterprise AI tooling.
- Architected end-to-end agent pipeline: input capture → model routing → memory retrieval → response generation → TTS output.

OCR Payment Extraction Pipeline 2026

Python · PyMuPDF · Tesseract · pandas · openpyxl

- Automated extraction of UPI transaction data from bulk payment screenshot PDFs, eliminating manual data entry with a 100% extraction success rate.
- Produced structured Excel reports for auditability; demonstrates the full AI implementation workflow: identify bottleneck → automate → verify output.

UPS Service Manager — Flutter Mobile App 2026

Flutter · Dart · Firebase Auth · Firestore · Provider · Material 3 | github.com/nandeesh2799/UPS-Service-technician

- Delivered a production mobile app for UPS repair technicians covering customer management, service order CRUD, warranty alerts, and WhatsApp integration.
- Implemented Firebase Auth and Firestore with clean architecture (models / providers / services / screens) and Material 3 dark/light theming.

Expense Tracker — Android App 2026

Java · Android Studio · SQLite · Material Design | github.com/nandeesh2799/ExpenseTrackerAndroid

- Built income/expense tracking with category summaries, monthly budget monitoring with progress bars, and push notifications.
- Implemented a custom SQLite DAO layer with parameterised queries, cursor-based result handling, and full CRUD operations.

AgriTech Website — 1st Place Hackathon Winner 2024

HTML · CSS · JavaScript

- Developed a responsive farming-assistance website; awarded 1st Place among all competing college teams.

EDUCATION

Bachelor of Computer Applications (BCA) 2023 – 2026

Christ Academy Institute for Advanced Studies, Bengaluru

Pre-University (Science / Computer Science) 2021 – 2023

Krupanidhi PU College, Bengaluru

CERTIFICATIONS

- Prompt Engineering Certified Practitioner
- Software Engineering — Infosys Springboard
- Networking & Web Technologies — Infosys Springboard

ACHIEVEMENTS & VOLUNTEERING

- 1st Place — College Hackathon (2024): AgriTech website; ranked first among all competing teams.
- Finalist — Departmental Coding Contest (2024): Top positions among 50+ participants.
- Tech Volunteer — Christ Academy IT Fest (Jul 2024): Managed all technical operations.
- Event Volunteer — Utkarsh Cultural & Academic Fest, Christ Academy (Sep 2023).

LANGUAGES

English (Professional) · Kannada (Native) · Hindi (Conversational)
